5th International Symposium on Abdominal Metastatic Cancer

KH Barmherzige Brüder, Regensburg
Universitätsklinikum Regensburg

BARMHERZIGE BRÜDER

UKR

Tumorzentrum Regensburg e.V.

4th - 5th of July, 2011

Regensburg

Dear colleagues,

it is a great pleasure and honour to invite you to our 5th International Symposium on Metastatic Abdominal Cancer in Regensburg. This year, management of liver metastases has been integrated into the scientific program. There are many aspects suggesting that both liver and peritoneal metastases may be treated in similar fashion with comparable long-term results. A live-operation and many free papers will be added to the present symposium. Opinion-leaders from three continents will give us an insight into their broad experience.
Many medical centers in Germany do manage metastatic abdominal cancer by multimodality treatment strategies including major cytoreductive surgery. We are proud to announce that the German groups are organizing the next World Congress on Peritoneal Surface Malignancies which will be held in October 2012 in Berlin.
Last but not least, the City of Regensburg, UNESCO heritage, will delight you with its Mediterranean flair in an excellent preserved middle age city. For the first time, the congress venue will be the Saint John of God Hospital in Regensburg, the largest Catholic hospital in Germany.

We are looking forward meeting you in Regensburg and remain

With best regards

P. Piso H. J. Schlitt

Program

Monday 04.07.2011

During the sessions short breaks for live-transmission from the Operation Room , KH Barmherzige Brüder

09:00 - 11:00 Session 1
Chairman: *Piso, Regensburg; Braess, Regensburg*

09:00 - 09:30 **What is the maximum prognostic benefit we can achieve for patients with liver or peritoneal metastases ?**
Gilly, France

09:30 - 10:00 **Selection criteria for surgical treatment of liver metastases**
Morris, Australia

10:00 - 10:30 **Combination of liver resection with regional chemotherapy and/or radiofrequency ablation**
Morris, Australia

10:30 - 11:00 **Peritoperative chemotherapy for colorectal liver metastases**
Arnold, Hamburg

11:00 - 11:30 ***Coffee Break and sponsor visiting***

11:30 - 13:00 Session 2
Chairman: *Schlitt, Regensburg; Wiedmann, Regensburg*

11:30 - 12:00 **Surgical technique of liver resection (with video)**
Oldhafer, Hamburg

12:00 - 12:30 **Delayed two-stage liver resection for bilateral liver metastases**
Schlitt, Regensburg

12:30 - 13:00 **Case reports discussed in a pannel of experts**
Lang, Mainz (moderator)

13:00 - 14:00 ***Lunch and sponsor visiting***

14:00 - 15:30 Session 3
Chairman: *Loss, Regensburg; Glockzin, Regensburg*

Free papers

15:30 - 16:00 ***Coffee Break and sponsor visiting***

16:00 - 18:00 Session 4
Chairman: *Jähne, Hannover; Esquivel, USA*

16:00 - 16:30 **Selection criteria for treatment of patients with peritoneal carcinomatosis**
Esquivel, USA

16:30 - 17:00 **Case presentations**
Sugarbaker/Morris/Piso/Esquivel

17:00 - 17:30 **Perioperative chemotherapy for peritoneal carcinomatosis**
Braess, Regensburg

17:30 - 18:00 **Update on ongoing trials**
Gilly/Esquivel/Piso

19:00 ***Bavarian evening***

Tuesday 05.07.2011

09:00 - 11:00 Session 5
Chairman: *Brücher, Tübingen; v. Breitenbuch, Regensburg*

09:00 - 09:40 **Extended indications for CRS and HIPEC**
Sugarbaker, USA

09:40 - 10:25 **How to start a PC program**
Morris, Australia

10:25 - 11:00 **Costs-analysis related to CRS and HIPEC**
Rau, Berlin

11:00 - 11:30 ***Coffee Break and sponsor visiting***

11:30 - 13:00 Session 6
Chairman: *Pelz, Würzburg; Seelbach-Göbel, Regensburg*

11:30 - 12:00 **Limiting factors for complete cytoreduction for ovarian cancer with peritoneal carcinomatosis**
Lampe, Düsseldorf

12:00 - 12:30 **Ovarian Cancer - HIPEC and Maximal Surgery. The Time is Now**
Helm, USA

12:30 - 13:00 **Morbidity and mortality after CRS and HIPEC - Pannel of discussions**
Piso, Regensburg

13:00 - 14:00 ***Lunch and sponsor visiting***

14:00 - 15:30 Session 7
Chairman: *Dahlke, Regensburg; Mayr, Regensburg*

14:00 - 14:30 **Devices for long-term intraperitoneal chemotherapy**
Sugarbaker, USA

14:30 - 15:00 **Best investigation modalities for liver and peritoneal metastases**
Stroszczynski, Regensburg

15:00 - 15:30 **Recommendations for the general practitioner regarding the algorithm after primary diagnosis of metastases**
Schlitt/Piso, Regensburg

16:00 ***End of the meeting***

Das Symposium wird von der BLÄK mit 15 Fortbildungspunkten bewertet.
